

**Press Release**

Jan. 20, 2025

**ASPINA wins “Awards for Excellence”  
at the 2024Nikkei Excellent Products and Services Awards**

ARW-3m: Our ultra-small reaction wheel was nominated and won an Award for Excellence at the 2024Nikkei Excellent Products and Services Awards hosted by Nikkei Inc., JAPAN. (\*1)

The ARW-3m is a key component used in the attitude control of CubeSats (a nano-satellite) and utilizes ASPINA's precision motor technology to achieve high quality, short delivery time, and low cost.

ASPINA will continue to expand its product lineup to match the size of satellites and contribute to the expansion of the space industry around the world.

## About the Nikkei Excellent Products and Services Awards

The Nikkei Excellent Products and Services Awards are given annually to recognize particularly outstanding new products and services, and this year marks the 43rd time these awards have been presented. Nikkei Inc. (\*1) independently selects the candidate products and services. The judging committee comprehensively evaluates the products and services based on six criteria: technological development, cost-effectiveness, contribution to business performance, growth potential, uniqueness, and impact on industry and society.

(\*1)

Nikkei Inc. is a world-renowned media brand for Asian news, respected for quality journalism and for being a trusted provider of business news and information. Founded as a market news provider in Japan in 1876, Nikkei has grown into one of the world's largest media corporations. Nikkei acquired the UK-based Financial Times in 2015.
